BRANDT IS AN INVESTMENT ADVISOR AT THE AWARD-WINNING FIRM ENDEAVOUR WEALTH MANAGEMENT. HIS WORK IS FOCUSED ON CREATING COMPREHENSIVE FINANCIAL PLANS FOR PROFESSIONALS, BUSINESS OWNERS, AND THEIR FAMILIES.

"Although I really enjoy talking about investments, they truly are only one piece of the puzzle. Good investments don't go up in a straight line and if you don't have a true financial plan, you can make some very costly but all too common errors during poor market periods. Understanding how my clients think and feel about money is an important ingredient to creating a financial plan that they can stick to. No person can consistently time the market or predict what the future has in store. Long term investment success best comes from being sensible, purchasing great businesses at good prices, and having a plan."

"Investors treat their investments more like trading cards than they do a real business (they are REAL businesses). There are VERY few successful business owners' who sell their businesses as often as individual investors sell their investments. Helping my clients realize we own real profitable businesses and taking a long-term owner's mentality helps them to ignore market noise, which leads to more successful long-term investment results"

Before wealth management Brandt was a National Team member for the Canadian Amateur Boxing Team. It was in the boxing gym where he had an opportunity in his teenage years to rub shoulders with some of Winnipeg's most successful financial advisors, ultimately inspiring him to pursue a career in Wealth Management today.

Brandt regularly writes on topics including financial planning, investment philosophy, and behavioural finance. If you are a CJOB 680 listener, you'll often hear Brandt providing market updates and commentary to listeners across Manitoba.

Brandt is a proud member of the community and when he's not in the office he can be found at United Boxing Club, as the head coach of the competitive program. In February 2016, Brandt started a non-contact boxing program that is helping individuals with Parkinson's to keep active and to fight back against their disease. The program has helped over 50 Manitobans living with Parkinson's and at the same time has inspired many others to join the program in a volunteer capacity ensuring its long-term sustainability in the community.
